/1/ IARU/NCDXF beacon network. OH2B transmits every 3 minutes starting 2min 10s after full hour on 14 MHz.

/2/ Frequency accuracy is better than 10^{-8} . On-site weather station: <http://hervanta.com/wx/>

/3/ FSK keying with 1800 Hz shift. Listen on USB.

/4/ F1-keying.

/5/ Subharmonic frequency-STD source for 144, 432, 1296 and 10368 MHz. Frequency accuracy is better than 5×10^{-12} at any time.
